

CSLesBiGay Yahoo! Group

The CSLesBiGay Yahoo! Group is a discussion list for the support of lesbian, gay, bisexual, and transgendered Christian Scientists. This is primarily a support and sharing list rather than a meeting place or dating service.

Christian Science is a religion founded by Mary Baker Eddy in the 1800's. The textbooks of Christian Science are *The Bible and Science* and *Health with Key to the Scriptures* by Mary Baker Eddy.

Like other Christian religions, Christian Science churches have not been very accepting of their gay, lesbian, bisexual, and transgendered members in the past. Among other topics, this list discusses how this can be changed.
